

Who is who
for Space4Climate.org
joint board meeting
Saturday 25th April
08:00-09:30 UTC

This *Who is who* has been created so that we do not need to lose time introducing everybody at the meeting.

Space4Climate.org has 2 Boards: an **Honorary Board** and a **Board of Advisors**.

Biographies of the Honorary Board members are available on our website and have been copied here for your convenience.

Given the Board of Advisors was formed recently and that there are quite a lot of members, we provide you their photos taken from LinkedIn as well as their “LinkedIn headers”.

Everybody’s LinkedIn profile has been linked: simply click on either photo or name.

Thank you in advance for your preparations. Looking forward to our discussions!

Jim

Honorary Board

Barbara Ryan

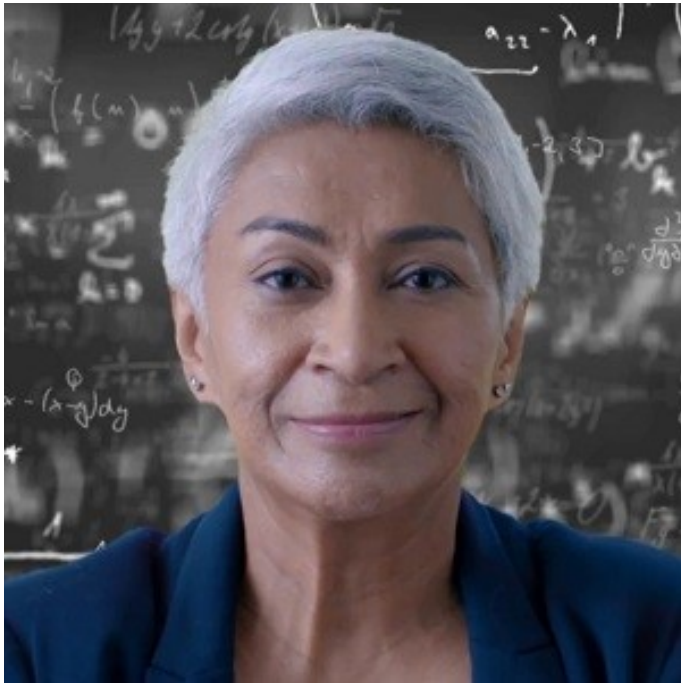

**Executive Director, World Geospatial
Industry Council (WGIC)**

Under Barbara J. Ryan's leadership, millions of satellite images and other Earth observation data have been made available to the general public at no charge, allowing scientists, planners and policy makers to make better-informed decisions on problems that transcend political boundaries. Her work addresses critical issues in agriculture, biodiversity, climate change, disaster planning, energy, health and water.

Barbara Ryan's career began in 1974 when she joined the United States Geological Survey (USGS), the nation's largest natural resource science and civilian mapping agency. She advanced steadily in the USGS, earning master's degrees in geography from the University of Denver and in civil engineering from Stanford University. As associate director for geography at the USGS, she was responsible for the agency's remote sensing, geography and civilian mapping programmes, including the Landsat satellites. From 2008 to 2012, she was Director of the World Meteorological Organization (WMO) Space Programme, and from 2012 to 2018, Ryan was the Secretariat Director of the intergovernmental Group on Earth Observations (GEO) in Geneva, Switzerland. In January of 2021, Barbara became the second Executive Director of the World Geospatial Industry Council (WGIC), a not-for-profit trade association of private-sector companies working in the geospatial and Earth observation ecosystem.

Ryan has served as chair of the international Committee on Earth Observation Satellites (CEOS). She has been awarded an honorary doctorate of science degree from her alma mater, SUNY Cortland. She has been named an Honorary Fellow of the American Geographical Society, in 2017 she was one of 10 global Leaders to be named to the Geospatial World Forum's Hall of Fame, and in 2019 she was awarded the Department of Interior and NASA's Pecora Award. She serves on several Boards and Advisory Committees including for two start-ups -- Azimuth1 and Data for Development Insights (D4DInsights), the Ecological Sequestration Trust, the International Centre for Earth Simulation (ICES), the International Symposium for Remote Sensing of Environment (ISRSE), and the Jane Goodall Institute

Honorary Board

Mazlan Othman

**Emeritus Professor, National University
of Malaysia (UKM)**

Emerita Professor Tan Sri Dr. Mazlan binti Othman is a Malaysian astrophysicist whose work has pioneered Malaysia's participation in space exploration. She was her country's first astrophysicist, and helped to create a curriculum in astrophysics at the national university, as well as to build public awareness and understanding of astronomy and space issues. She was appointed Director General of Angkasa, the Malaysian National Space Agency and served as the director of the United Nations Office for Outer Space Affairs in Vienna from 2007 to 2014.

Honorary Board

Jeanne Holm

**Deputy Mayor for Budget and Innovation
at City of Los Angeles (L.A.)**

Jeanne Holm works at the cross-section of civic innovation, open data, and education. She is the Deputy Mayor for Budget and Innovation at the City of Los Angeles, working on issues ranging from homelessness to digital equity technology innovation, data and analytics, fiscal transparency, and public-private partnerships.

As a senior consultant with the World Bank, she worked with governments throughout the world to build robust open data ecosystems and ensure transparency.

She was the Evangelist for open data for the U.S. White House, leading collaboration and building communities on Data.gov with the public, educators, developers, and international and state governments in using open government data. She was the Chief Knowledge Architect at NASA, driving innovation through social media, virtual worlds, gaming, and collaborative systems, including the award-winning NASA public portal (www.nasa.gov). She is a Fellow of the United Nations International Academy of Astronautics, Distinguished Instructor at UCLA, is a Trustee with Claremont Graduate University, and leads a start-up on education and social justice.

Her research (over 130 publications) and courses focus on data science, knowledge management, and civic innovation. Her honours include the NASA Exceptional Service Medal for leadership (twice), top 50 Women in Tech, NASA Achievement Award for her work on the Galileo and Voyager spacecraft, three Webby's from The International Academy of Digital Arts and Sciences, and she led NASA to an unprecedented three global Most Admired Knowledge Enterprise (MAKE) awards.

Honorary Board

Lisa Vitaris

Founder & CEO, Indo-Pacific Space

Lisa Vitaris is CEO and Founder of Indo-Pacific Space, an advisory and consulting practice focused on accelerating the growth of the Indo-Pacific's emerging space industry. She is also Strategic Advisor, Indo-Pacific and Bid Director for IAC 2029 Houston for the AIAA.

Previously, Lisa served as Interim CEO of the Space Industry Association of Australia (SIAA) and Director of IAC 2025 Sydney, which attracted over 7,400 delegates and 19,500 public attendees, delivering approximately AUD \$42 million in economic impact to New South Wales.

Lisa has a globally recognised voice in the space sector, having presented at the United Nations Committee on the Peaceful Uses of Outer Space in Vienna, at COP30 in Brazil, and at leading international forums across space, health, mining, and technology.

Her executive career spans high-growth and listed organisations across space, technology, telecommunications, financial services, automotive, and tourism. She has held senior leadership roles including Chief Marketing Officer, working with brands such as amaysim (Optus), Tyro, CMC Markets, Hyundai, Tourism Tasmania, Volvo, and LG.

Lisa also serves on the Board of Engineers Australia, the national body representing over 140,000 engineers, supporting the profession through standards, capability development, and advocacy.

In addition to her work in space, Lisa is Founder of 10 Pieces, a sustainability initiative focused on environmental action and behaviour change, reflecting her commitment to climate and responsible innovation.

Lisa is an Engineering Executive (EngExec) and Graduate of the Australian Institute of Company Directors (GAICD). She holds a Master of Business (International Marketing) and a Master of Business Administration (MBA) and is passionate about the role of space-enabled technologies in addressing global challenges, including climate resilience and sustainable development.

Board of Advisors

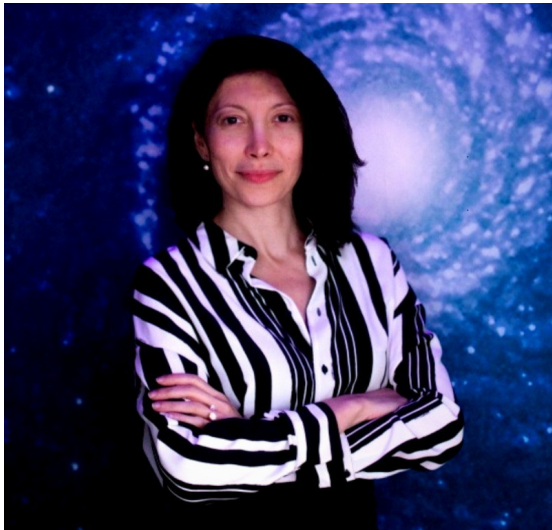

Lily Asongfac

5+ years in Space Industry |
TEDx Speaker | IAF ESL
Awardee | TechWomen
Fellow '23 | SGAC NPoC
CM | UNOOSA
Space4Women | Let's talk
Outreach & Space STEAM
Education in Africa

Samer Bou Abdo

Aerospace Engineer |
Propulsion & Energetics |
CFD, Combustion, Applied
Mechanics

Gülin Dede

PhD, MSc, Tech Executive |
Programme Coordinator |
Consultant

Jessica D'Urbano

M.D. Occupational Med
Resident| Space Med
Researcher| Air Medical
Doctor| ESA Citizen Scientist|
NASA GeneLab Multi-Omics
AWG Co Lead| UNOOSA and
WHO Space and Global
Health Cv Taskforce| IAF
SEOC Member

Board of Advisors

Cameron Farrar-Frank

Head of IT Asset
Management @ Allianz |
Global ITAM Leader

Janine Geijsen

****TEDx Speaker**** | 🌍 ****In
awe of the world**** | 💡
****Leader of Innovation &
transition**** | Creativity
pusher

Bernard Foing

President Space
Renaissance Int'l, CEO
LUNEX EuroMoonMars
Earth Space Innovation
EuroSpaceHub, Qosmosys
Sci Chief, Prof Riga/
Leiden/NUAA/BIT ex
IPSA/Amsterdam/EPFL/ISU
, Training astronaut,
Producer, ArtMoonMars,
Musician

Sona Guliyeva

PhD Researcher | Earth
Observation & Space |
#3 in Top 100 Women in
Aerospace & Aviation
2025

Board of Advisors

Marc Heppener

Entrepreneur at
Entrespatiaux,

Former Chief Scientist,
Robotic and Human
Exploration, ESA

Alex Karl

ISS Operations, Planetary
Defense, Public Education
& Outreach, SpaceKind

Yankit Kukreja

Navigating Officer.
Currently - MSS 25-26 @
International Space
University

Agnieszka Lukaszczyk, PhD

Experienced executive
specialising in Space
Security, Earth Observation
and Strategic Thinking

Board of Advisors

Rani Masele

ALX Ambassador | Youth
Space Ambassador | CS
undergraduate student |
Youth Mapper President |
Founder of Empower her |
Stella Event and Promotion

Milica Milošev

Econnects Association |
Marketing Specialist at
MDPI

Temidayo Oniosun, Ph.D.

Research Affiliate at MIT
Media Lab

Danilo Sakay

Ph.D. Technologist – AEB
Strategic Intelligence and
New Business Advisor

Board of Advisors

Koray Soğancı

teacher / translator / senior
advisor @ ethereum.com.tr

Rick Tumlinson

Founder-Chair - SpaceFund |
EarthLight, New Worlds,
Space Cowboy Ball |
NewSpace Revolution |
Keynote Speaker | Thought
Leader | Author: Why Space?
The Purpose of People

Me

Jim Volp

Professionally: Head of Operations New Space at Media Broadcast Satellite
In my spare time: I've served as Governing Member of ISU, Director of Edu Relations for WSW and NpoC -> Regional Coordinator -> co-Chair of SGAC. I organised the 1st ESA Student Outreach Program, 1st Space Generation Congress, 1st IAF Young Professionals Program and 1st IAF Educators Program. Besides that I did something called Space In Africa + ran PCs4KIDS' Education. I'm in the IAF Committees CLIODN, CIA, KMTC, [SOP](#), [ACCESS Africa](#) + [MECA](#). Most importantly: I married the SGAC National Point of Contact of Azerbaijan (now 22 years ago) and we got 4 fantastic children. [Longer \(life\) story](#).
